History Professor Hal Wert Will Be April 27th Speaker

Retired Kansas City Art Institute History Professor Dr. Hal Wert will be our speaker and his topic will be “Why Not Explain Everything: The Death of the Current Paradigm”. The international system has served us well for seventy-five years but circumstances have changed so radically that the system can no longer manage events. The old certainties seem less so while any new solutions seem nowhere to be found. What to do? Come to hear what Professor Wert has to say about this dilemma and how it will affect generations to come. This will be a thought provoking experience.
